WESTLUND FLORIDA

Expertise in Product Handling

Automated Assembly Systems & Specialty Packaging Equipment

Westlund Florida LLC manufactures automatic and semi-automatic assembly machines and complete production line systems to meet your needs. We have an open door policy which encourages discussion with clients to ensure simple, efficient and cost-effective solutions.

Our line of standard and special rotary indexing bases provides maximum dependability, ease of tooling and low maintenance indexing for many processing operations. Additional Westlund automation accessories include: pick and place mechanisms, probe assemblies and special feeders.

A FEW OF THE MANY PRODUCTS ASSEMBLED OR PACKAGED ON WESTLUND SYSTEMS INCLUDE:

- Toys
- Sports Equipment
- Phamaceuticals
- Household Items
- Electronic Hardware
- Food Products
- Cosmetics

Westlund offers you complete training plus parts and service to meet your needs.

Let us know your product handling applications. We are experienced in engineering complete, efficient systems to meet your individual requirements.
